NEW YORK, Oct. 19.—In a fog that

hung over the meadow last night be-

tween Jersey City and Newark, three

passenger trains came together on the

New York division of the Pennsylvania

railroad. Three passengers were killed

outright and seven injured more or less

seriously. The names of the three pas-

sengers killed have not yet been ascer-

tained, for they were passengers on the

rear car of the emigrant train, which

was telescoped and thrown across the

track. When the accident was first re-

corded rumor put the number killed at

nine or ten, but the ruins have been

thoroughly overhauled, and it is believed

that the list of casualties is complete.

The express locomotive plunged ahead

into the rear emigrant passenger coach

and turned it across the other track. In

this car were all the three who were

killed, and they died almost instantly, or

shortly after the crash. The five emi-

grants who were hurt were also taken

from the ruins of this coach. Hardly

had the train hands and the multitude

of unfortunate foreigners begun to

recover their scattered senses and

pick themselves out of the ruins, when

another gleaming headlight loomed up

through the mist. It belonged to the

engine of the Lehigh Valley train No.

194, that left Metuchin at 7:40 and was

due at Jersey City at 8:35. It had left

Newark five minutes before the Western

express left Jersey City. It dashed

headlong into the wreck and went over

the embankment, but fortunately took

none of the cars with it.

As near as can be ascertained, the list

of

KILLED AND WOUNDED

is as follows: Unknown man about 40

years of age. His head was completely

torn from his body, and both his arms

were broken.

Unknown woman about 25 years of

age. Her head was severed from her

neck, and her body was covered with

bruises.

Unknown boy about 12 years of age,

both his legs were broken and his skull

was fractured.

Unknown girl about 18 years old.

Her skull was fractured.

Ulena Arneas, 35 years of age, on her

way to her father at Madison, Wis.

Both her legs were broken and her skull

fractured. She was brought to the de-

pot alive, but died five minutes after

reaching St. Francis' hospital.

Marius Klingler, head and body

bruised.

Laura Melanand, head and legs cut;

likely to die.

Christian Wyagbrisen, of Boldstadt.

Karl Henry Grommer, a Norwegian,

aged 36; Mrs. Karl H. Grommer, aged 33,

and William Grommer, aged 8, are

among the dead.

E. V. Urberath, conductor of the emi-

grants train, arm broken.

Stewart A. Bowers, fireman of the Le-

high Valley train, South Easton, Pa.;

married; scalp wound.

Owen Hall, engineer of the Lehigh

Valley train, Easton, Pa., 35 years old;

married; fracture of the foot and severe

bruises.

Three men taken to St. Francis hospi-

tal unconscious.

Ralph Burry, aged 29 years, internal

injuries.

Christine Y. Balsta, a Norwegian, 35

years old, right leg fractured in two

places.

ECHOES FROM THE DEAD.

JERSEY CITY, N. J., Oct. 19.—The

bodies of two boys and a woman were

found this morning under the Lehigh

valley engine. The bodies have been

brought to this city, but as yet they

have not been identified. Thomas P.

Pratt, a telegraph operator, at Marion,

has been arrested.

Pratt, who is 26 years old, is an expe-

rienced operator. He admits he did not

give the right signal. He says he was

advised by his friends to desert but re-

fused to do so. He is held to await the

action of the coroner's jury. Hereafter

at No. 325 Fifth street, this city, with

his wife and three children.

There have been eight deaths in all and

most of the wounded will, it is thought,

die. The depot is surrounded by a crowd

awaiting news and great excitement pre-

vails here. The bodies at the morgue

have not been identified.

ANOTHER HORROR.

CONCORD, N. H., Oct. 19.—A passen-

ger train on the Northern railway ran

into a broken freight last night at And-

over Plains, this state. Three men were

killed and six cars were splintered. The

express messenger and baggage-master

were imprisoned in the wreck and it was

necessary to cut them out. Both of these

were in the baggage car which took fire,

but the flames were extinguished with-

out damage. There were two clerks in

the mail car, one of whom was injured.

Aside from a severe shaking up, none of

the passengers were hurt. A wrecking

train and medical assistance went from

here and the track was cleared before

night.

The following is a list of the killed:

L. Graves, engineer of the passenger

train, of Concord, aged 60 years.

John P. Emmerson, engineer of the

freight train, of Concord, aged 30.

William Harvey, brakeman on the

freight train, of Lebanon, aged 30.

The following is a list of the injured:

Frank H. Stevens, postal clerk, of

West Lebanon, leg hurt.

William W. Stone, express messenger,

of Concord, ankle and head bruised.

William Turner, baggage-master, of

West Lebanon, leg broken and otherwise

injured.

Oscar Leighton, fireman on the pas-

senger train, of Concord; head and hand

bruised.

Frank C. Wells, fireman on the freight

train, of West Lebanon; head bruised.

COLUMBUS, Oct. 19.—The official count

of this county was continued this morn-

ing. I. E. Powell appeared for demo-

cratic candidates and spoke three-

quarters of an hour. R. A. Harrison fol-

lowed for the republican candidates and

at the conclusion of his speech the

board of canvassers concluded to re-

ceive and count the returns.

Precinct A, of the Fourth ward was

counted and tallied with satisfaction to

all candidates. The returns from the

Thirteenth ward had been read through

the lists of republican candidates, there

being a total vote of 760 in the precinct.

The original vote stood republicans 503 on

the head of the ticket and 203 demo-

crats. Three hundred tallies had been

added to the full democrat ticket with

the exception of Atherton, for supreme

judge, who had been given 200, this

made the total vote a little over 1,000.

About 300 more votes than are

in the precinct. The board de-

cided to count the precinct

as returned. This will elect about the

entire democratic county ticket, and

Taylor, republican, for legislature, by

forty-five votes. Myers and Young,

democrats, for representatives, will still

be defeated. The board of canvassers

adjourned to 5 p. m., when they will

meet to sign the certificates. Represen-

tatives of both sides have asked permis-

sion to appear before the board at that

time. There is considerable fretting

over the discoveries in the Thirteenth

ward. The returns have been in the

possession of the clerk since Saturday.

BROWN'S IRON BITTERS

Physicians and druggists recommend it. This medicine, combining iron with pure vegetable tonics, quickly and completely cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia. It is an unrivaled remedy for Diseases of the Kidneys and Liver. Take no other. It does not injure the teeth, cause headache, or produce constipation—other iron medicines do. It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves heartburn and belching, and strengthens the muscles and nerves. For Intermittent Fevers, Lassitude, Lack of Energy, etc., it has no equal. The genuine has above trade mark and crossed red lines on wrapper. Made only by BROWN CHEMICAL CO., BALTIMORE, MD.

PROVIDENCE

Helps those who help themselves. Nature has provided herbs for the cure of human ailments and medical science has discovered their healing powers, and the proper combinations necessary to conquer disease. The result of these discoveries and combinations is

MISHLER'S HERB BITTERS.

For many years it has been tested in severe cases of Kidney and Liver Diseases, Malaria, Dyspepsia, Indigestion, Weakness, Lassitude, etc., and invariably it has given relief and cure. Thousands of testimonials have been given, and it is most popular where best known.

J. O. Steinhilber, Superintendent of the Lancaster Co., Pa., hospital, writes: "I used it in a great many cases of dyspepsia, kidney disease, liver complaint, rheumatism, asthma, and scrofula, and invariably with best results."

F. Hoffman, of Circleville, Ohio, says: "This is to certify that I have had the dumb ague, and by using one bottle of Mishler's Herb Bitters a complete cure has been effected."

THE Indianapolis democratic city committee have decided to contest the election of Caleb A. Denny for mayor, and James A. Pritchard for alderman. The majority of the latter on the face of the returns is only eight.

THE Queen of Italy is having a magnificent fan painted for her by an Italian artist. It is painted on kid leather, and represents the Queen surrounded by the Graces and other allegorical figures, with the genus Italy in act of crowning her.

THE visit to a police court in Montreal or Quebec may not be the most pleasant form of entertainment, but it is interesting on account of the philological exercise. Both French and English are used according to necessity, and the Judge, lawyers, and jurors are required to speak either language. Sometimes both languages are spoken at once, and a particularly curious effect is observed when a French-Canadian who has learned English from an Irishman is called to the witness-box.

BEER is more dangerous than whiskey. That is the verdict of the *Scientific American*, which sets forth that the use of beer is found to produce a species of degeneration of all the organs; profound and deceptive fatty deposits; diminished circulation, conditions of congestion and perversion of functional activities, local inflammations of both the liver and kidneys, are constantly present. A slight injury, a severe cold, or a shock to the body or mind, will commonly provoke acute disease ending fatally in a beer-drinker.

A CORRESPONDENT of a Boston newspaper says that Mr. Nast's wife is the original of Columbia, the tall, beautiful woman with the classic face, who has been so prominent in the allegorical pictures during and since the war. These pictures first gave Nast his national fame. In beauty of conception and execution they had never been excelled, and are chapters of the history of the Nation's mind—photographed moods, as it were. Columbia, let it be noticed, is altogether a different figure from the Goddess of Liberty. She is Nast's special creation in the world of art.

INDIANAPOLIS Journal: A New Orleans genius has invented a cash box for street cars which will make its own change, the passenger dropping a coin in at the top, and the same amount, less the fare, coming out at the bottom. When the box is improved so that it will walk up in front of the passenger and receive his nickel, it may be that the Indianapolis public will be favored with automatic conductors. In the meantime, the weary traveler of the male persuasion totters up to the box, deposits a fare and stammers back, repeating the operation many times in the course of a mile for the benefit of the lady passengers. It is a great town, and its mule cars are peculiar.

HERE are a couple of anecdotes of the late Emory A. Storrs which appear in the New York Tribune: "We are told of a remark made by Storrs after an incident of Lord Coleridge's visit to this country. Storrs gave him a supper at Chicago. A tailor to whom Storrs owed an account attached the supper at the hotel where it was laid just before it was to be served. Storrs appealed to the friends who had been invited to the dinner, and the money was promptly raised. As he paid the bill he said: 'This is the first time in the history of the world that a Lord's supper has been attached for debt.' Mr. Chance said that Storrs, who was at one time a hard drinker, said to him: 'Chance, I never come to New York and start down Broadway, even in cold weather, without getting on the shady side of the street.' 'Why, what is that for?' asked Chance, when Storrs responded: 'This town is so fondly demoralizing, and I don't want to walk in the sun for fear my shadow will ask me to drink.'"

TALKING of ex-Speakers of the House of Representatives, a correspondent says: "Mr. Saylor has short-cropped gray whiskers, thin face, high forehead, gray eyes, and a very gracious manner. He still adheres to the Congressional black, but said that he was altogether out of politics. What becomes of ex-Speakers of the House of Representatives? Mr. Randall is still in public life, and is preparing for a great tariff contest this winter. Mr. Carlisle is an 'ex' at the present moment, but his title is certain to be made good again in December. Mr. Grow, of Pennsylvania, has retired to private life, where he is likely to remain. He is a very fine-looking man. His beard is of the whitest, and is always kept trimmed to a point. His liver is also beyond reproach. Mr. Grow is an eloquent speaker. R. M. T. Hunter, of Virginia, was recently made Collector of Customs by President Cleveland, but for years he has lived in obscurity. Keifer will be heard no more in the halls of Congress. It is said that he exercised the customary Ohio thrift while in Congress, and may be worth anywhere from \$200,000 to \$500,000. Mr. Blaine is probably the exception where an ex-Speaker or official of any kind wields much influence when out of office.

"Mrs. GARFIELD and her family," writes a Cleveland correspondent of the *Louisville Commercial*, "occupy one of the handsomest residences on Euclid avenue, and any fine afternoon they can be seen driving or seated on the steps of the residence. The mother has aged considerably since the time she occupied the position of the first lady of the land, and show plainly the fearful trial through which she passed. Her children are intellectual, and have an air of well-bred, dignified, gentle bearing that marks them as being of distinguished parents and of careful training. Though they as yet do not go into general society, they have a large circle of friends and acquaintances. The carriage, as it rolls down town, is pointed at, and its occupants receive a great deal of attention from the curious throng. The turnout is one of the handsomest in the city."

THE "Easy Chair" in the current number of *Harper's Monthly* gives to the public two letters, heretofore unpublished, written by Thomas Carlyle to the Hon. Beverly Tucker. They are dated respectively October 25, 1846, and October 21, 1850. Both relate to the slavery question, but the latter the more explicitly. The chief letter is peculiarly characteristic in style and spirit. "Alas," cries Carlyle, "the question is as deep as the foundations of society, and will not be settled this long while! For the cry of Emancipation, so well pleased with itself on humanitarian platforms, is but the keynote of that huge anarchic roar now rising from all nations, for good reasons, too—which tends to abolish all mastership and obedience whatsoever in this world, and to render society impossible among the sons of Adam."

AMONG some sheep received at the West Albany (New York) stock-yards, was a ewe from Kentucky with five legs. She is spry, and does not seem to be inconvenienced by her extra limb. She is four years old, and goes about like other animals. The leg projects from the right side of the belly about a third of the distance from the hind leg. It has the appearance of a foreleg, and is drawn up akimbo. The hoof has the appearance of having been used when a lamb, but is now rather warped. If the leg is straightened out it quickly flies back when liberated. It appears to be fastened by a joint to one of the ribs. Otherwise the animal seems to be perfectly formed.

DURING the past twenty years the production of potassic salt in Germany has increased nearly ninefold. In 1864 the yield was 2,336,791 centners, while in 1884 it had increased to 19,383,920 centners. There are seven important basins where this salt is obtained, and the salts, aside from their worth through the chemical industry, have proved to be of inestimable value as manures, both in German and foreign agriculture. The salt chiefly used for this purpose, because of its chemical compounds, is technically known as kainite. Last year Germany consumed 922,799 centners of kainite, and Prussia 782,660. It is believed these salt basins are inexhaustible.

MRS. CUSTER, writing from Coney Island to the *Chicago Tribune*, thus tells of the cast-iron cow: "I confess to lingering longest over the cast-iron cow. She stands serenely under a highly beaked awning, evidently rehired and retailed for the summer's campaign. There is just one thing lacking to complete the delusion of her genuineness. There should be invented internal machinery that would switch round her well-ormed tail. As it is, the cardinal ribbon that ties its exuberant wavelets is without a flutter, even when the impertinent flies buzz round in swarms." A merry maiden milks this cast-iron cow and sells the beverage to the thirsty wayfarers.

Purify your blood, tone up the system and regulate the digestive organs by taking Hood's Sarsaparilla. Sold by all druggists.

THOMAS is now living in Washington a colored man named Shadrock Nugent, who is probably the oldest person in the United States. Ten years ago Gen. E. W. Whitaker made a careful investigation into the age of Nugent and found then that his claim to be 115 years of age was correct. He is seldom sick. His eyesight is as good as ever, and for ten years he has been suffering with the rheumatism. He has seen every President that has been in the White House but President Cleveland, though he says as soon as he gets strong enough to walk he will call upon him. He says he thinks his strength has been falling during the last few years, and does not expect to live much longer.

A GOOD way to oil harness is first to apply a copious coat of castor oil, or two coats if one does not appear to be sufficient to fill it well and render it pliable. This softens the dirt so that it is easily washed off, and saves the labor of much scraping. Wash it with a sponge and soapsuds, and when dry rub over a mixture of equal parts of oil and tallow, covered with lamp-black, and a small portion of Prussian blue. In order to preserve a good black blue permanently, the castor oil, which is first applied, should be colored with lamp-black, which will penetrate the pores. Harness requires more care to keep well oiled in summer than in winter, as nothing hurts it more than frequent showers and hot weather unless well protected with oil.

THE report of the Massachusetts Bureau of Labor and Industry, just issued, gives the following table, showing the difference between the wages of workmen in that State and in Great Britain:

	Massachusetts.	Great Britain.
Average highest weekly wages to men	\$25.41	\$11.36
Average highest weekly wages to women	8.57	4.10
Average highest weekly wages to the young	6.24	3.04
Average highest weekly wages to children	4.64	1.05
Average lowest weekly wages to men	7.09	4.73
Average lowest weekly wages to women	4.62	2.27
Average lowest weekly wages to the young	4.28	1.66
Average lowest weekly wages to children	3.09	60
Average weekly wages to men	11.85	8.20
Average weekly wages to women	6.09	3.37
Average weekly wages to the young	5.10	2.40
Average weekly wages to children	3.81	79

The general average weekly wages in Massachusetts is higher than in Great Britain by 48.28 per cent.

Scenes in Siam. In Siam they cut the tails of the cats so as to leave only an inch long. Then they dye the animals a bright yellow, which makes them look very gay. The ten-inch lizards of Siam crawl on the ceilings and catfies and mosquitoes. Siamese Princess of royal blood wear less clothes than a New York street Arab. The doctors in Siam prescribe such queer things as crushed spiders, peices of reptiles, groundserpents, bones, scrapings of the horns of wild goats, stags and rhinoceroses and the scales of fishes and insects. Frightful Case

Of a Colored Man!

I contracted a fearful case of blood poison in 1881. I was treated by some of the best physicians in Atlanta. They used the old remedies of mercury and potash, which brought on rheumatism and impaired my digestive organs. Every joint in me was swollen and full of pain. I was in a horrible condition; when I had been given up to die, my physicians, who had seen the workings of the medicine in other cases, thought it would be a splendid time to test the virtues of Swift's Specific. When I commenced taking S. S. S. the physician said I could not live two weeks under the ordinary treatment. He commenced to give me the medicine strictly according to directions, which I took for several months. I took nothing else, and commenced to improve from the first. Occasionally I would have a basket from imprudence. Soon rheumatism left me, my appetite became all right, and the ulcers, which the doctor said were the most frightful he had ever seen, began to heal, and by the first of October, 1884, I was a well man again. I am stronger now than I ever was before, and weigh more. I have not failed to report for duty since that time, being engaged in the oil warehouse of Chess-Carley Company. I have been, and still am, doing some of the hardest work any man ever did, and am ready to answer any question that may be asked concerning this cure. Swift's Specific has saved me from an early grave.

LEM McCLENDON. Atlanta, Ga., April 18, 1885.

LEM McCLendon has been in the employ of the Chess-Carley Company for some years, and I know the above statements to be true. At the time he began taking Swift's Specific he was in a horrible condition, and at my solicitation his treatment with S. S. S. was undertaken by a physician after several others had declared his case to be hopelessly incurable. He took nothing but S. S. S., and has been as sound as a new dollar for several months. I regard his cure almost miraculous.

CAUTION!

Consumers should not confuse our Specific with the numerous imitations, substitutes, potash and mercury mixtures, which are gotten up to sell, not on their merit, but on the merit of our remedy. An imitation is always a fraud and a cheat, and they thrive only as they can steal from the article imitated. For sale by all druggists. Treatise on blood and skin disease mailed free.

A professor in a medical college once said to his class "put your hand in a vice, turn the screw until the pain in all your bones, and that's rheumatism. Turn the screw once more, and that's neuralgia—and gentlemen, the medical profession knows no cure for either." That was before the discovery of Atrophors, which does and will cure both rheumatism and neuralgia, and many physicians use it regularly—frankly admitting that they can prescribe nothing else so effective.

Many persons have tried so many so-called remedies, without benefit, that they have no faith to try more, but let me tell you while to try Atrophors. If you have any doubts as to the value write for names of parties in your own State who have been cured by its use.

Ask your druggist for Atrophors. If you cannot get it of him we will send it express paid on receipt of regular price—\$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

FOREIGN AFFAIRS.

By Cable to THE SENTINEL.

LONDON, October, 18.—Prime Minister Salisbury has already got the Tory party in thorough campaign trim. At the opening of the canvass the Conservatives were in an apparently hopeless minority, as against the united Liberal factions. These factions were indulging in a sort of go-as-you-please campaign, but now they are in good shape, though nothing of moment has happened to record during the past week.

The public avowal of Cardinal Newman, concerning the established church is really one of the most extraordinary occurrences, of the campaign. He advises Catholics to assist the conservatives in maintaining the established church against the attacks of its enemies, declaring that it is one of the greatest bulwarks of England against atheism.

"I wish all success to those defending the church and I and my friends will join in defending it." Many affect to see in the Cardinal's exhortation nothing more than a political adoption of the Roman Catholic churches of the principle that any religion is better than none. But his words have attracted universal attention here and will doubtless assist the conservatives as a party to stand by the church, to secure an alliance with the Irish party.

The Tory political agents throughout the country generally, regard as favorable the prospect for their party. They do not predict a victory, but the sum of their assurances is that in no event can the Liberals win by large majorities.

The Conservative party leaders are so conscious of this, that the Marquis of Salisbury has, it is stated, decided to adopt an extraordinary course. He will, it is said, continue in office, even if the Liberals obtain a majority in the next parliament, unless the majority is so large as to show a very strong public verdict against the government, until defeated by vote in the new house.

The executive branch of the Irish government is making a most determined effort to check, through the operation of the ordinary laws, the extensive system of boycotting which has been revived in Ireland. The long list of prosecutions which are every day published, show the activity of the police in all cases wherein good evidence is procurable against them.

The boycotters are summoned and committed to trial or bound over to keep the peace. The license is revoked of every keeper of a public house, who is found guilty of refusing supplies to persons under the boycott law. So many publicans have already lost their license on this account that the league now exempt publicans from obedience to boycotting orders; although in all other respects this method of punishing persons pronounced objectionable to the organization, is pursued unchecked.

So offensive has the boycotting become, that the government has determined to revive the "Whiteboy act." The "Whiteboys" of Ireland performed their work at night and in a masquerade in white. The act inflicts seven years penal servitude on persons found guilty of menace or conspiracy against the peace, person or property of loyalists in Ireland.

Dispatches from Calcutta state that Nounpok, half brother of Thebaw, king of Burmah, and who has for some time been residing in Calcutta, is about to go to Rangoon as the British nominee to succeed Thebaw, unless the latter submits to England.

To-night's advices from Paris are to the effect that an intense anxiety prevails throughout the whole of France, in regard to the outcome of to-morrow's special elections. There will be a second balloting in no less than 202 places, to settle the ties and other defective ballotings in the general elections of Sunday, the 4th inst. It is feared the monarchists have prepared to spring some sensation on the country. M. Allain Targe, minister of the interior, has sent a circular to every prefect in the Republic, advising him that the adverse results of last Sunday were accomplished through the disloyalty of the mayors and other officials, and ordering him to proceed with the utmost rigor to-night and to-morrow against all persons found in his department engaged in circulating any false news calculated to discredit the government or affect the ballotings.

M. Rochefort asserts that the Anarchists are plotting to seize the voting places and carry the election districts by the falsifying votes.

From St. Petersburg it is stated that the Czar will to-morrow return to Gatchina. He has issued a ukase dated at Fredenberg, forbidding the general celebration on March 3rd, next, of the twenty-fifth anniversary of the emancipation of the serfs in Russia. Preparations had already begun for very extensive

celebrations of this event in many parts of the empire. The Czar, it is stated, found good reason to suspect that the celebration was to be made a ruse for a general nihilistic rising to be organized by the students of Kiev, St. Petersburg and Moscow and on this account issued the extraordinary ukase.

In Berlin the Progressists in the Reichstag have resolved to make the government action in expelling the Russian Poles from Prussia, a leading parliamentary question, as soon as the sessions of the Reichstag are resumed. The deputy, Professor Mueller, proposes to appeal to the German government to withdraw the edict of expulsion, on the ground, that the operations under it, injure German interests as much as foreign interests. The municipal authorities of Konigsburg, have also resolved to send a strong protest against the expulsions, to Prince Bismarck author of the edict.

This protest will describe the terrible sufferings to which the unjustly expelled Poles are subjected and declare them a stain and a dishonor upon the German name. Many of the expelled Poles have to pass through Konigsburg on their way to the frontier and a great majority of them reach that city in such abject distress, that the town has been compelled from motives of charity to maintain a public relief committee for their assistance.

As many as 800 penniless and starving Polish exiles have been in the custody of the committee at one time. The German newspapers are becoming thoroughly aroused on the subject and most of them, without regard to party affiliations, at present protest against the barbarity and inhumanity of the expulsion and describe it as an outrage that must evoke the indignation of the entire world.

HOW TO GET DYSPEPSIA.

Together With a Few Thoughts as to How to Get Rid of it.

From Indianapolis Times.

There are a great many ways, more or less short and easy to disorder the stomach and produce that state of indigestion which is commonly known as dyspepsia. One of the most recent is to eat locusts. These insects are strange food for respectable people to eat. For centuries the Digger Indians on the Pacific coast have lived on a regular diet of grasshoppers; but these people are a coarse lot of savages and the grasshoppers couldn't hurt them. One of our most learned professors is said to have taken to eating locusts as an experiment. Hens are very fond of locust, but after eating them in large quantities they lay eggs with pale yolks, showing that there is something in the locust diet which exerts a poisonous influence on the internal economy of the hen. Cats eat locusts in vast quantities, but it would take more than locusts to injure the digestive apparatus of a cat. A policeman, not long ago, had some locusts made into a pie. After eating the pie, he had an attack of dyspepsia or something worse, which nearly killed him. Nobody will ever know whether the locusts or the pie-crust are responsible for the sorrows of this guardian of the public peace.

Professor Riley, the great Entomologist at Washington, not only eats locusts, but says that they cure people of dyspepsia. He was thin and spare when he began this diet, and he has fattened up on it wonderfully. He steams his locusts and makes them into a sort of cake or pie, which, after pressing and cooling it, he eats into slices.

Yet his example will probably not be widely followed. It is said to predict that as an article of diet locusts will not be popular in this community.

There is to curing dyspepsia, we have a much simpler way, and one which is far finer than the use of locust meat. As to what this way is, let us consult some of our neighbors who can tell us about it from personal experience.

The writer called on Mrs. Hoover, 311 West Washington street, and made inquiry as to what she knew about dyspepsia in the household.

"It was not myself," said Mrs. Hoover, "but my daughter Anna who had dyspepsia. She had quite a complication of disorders with it, too. She is away from home on a visit now. I would like you to see her, but I can tell you about her. Besides dyspepsia she had catarrh and dropsy, and she was in such a weak and debilitated state that we were very much alarmed about her. Somebody recommended Brown's Iron Bitters to her and with the first bottle she took she began to mend. She took half a dozen bottles or more, and built up the system. The doctor left her at once, but they did leave her. Since that she has had no return of them, and we call her entirely well."

That is surely a good record for Brown's Iron Bitters. Now let us visit Mrs. Oehlert, 77 West Seventh street.

"Was it dyspepsia, Mrs. Oehlert?" "Yes, sir, and a good deal of debility with it, too. Two years ago I was nursing a baby—a bright, healthy child you see he now is, sir, but he was a great

strain on me. My stomach got out of order and my digestion was bad, and I fell away in flesh a great deal, too. I had severe sick headaches, and altogether I began to be in quite a bad way. I had seen a book about Brown's Iron Bitters, and I thought this must be a medicine that had something in it for me. So I got a bottle. Why, sir, 'twas the very thing I had been needing. It took it cautiously at first, and in very small quantities, for it was a sort of stranger to me and I was a little afraid of it; but soon I saw that there was nothing in it to fear, and that it was doing me good. Oh, how it did brace me up! I never had any medicine do me so much good! It drove out my dyspepsia, gave me strength and made a new woman of me. You may say that I believe very thoroughly in Brown's Iron Bitters."

Not only for dyspepsia is Brown's Iron Bitters, but for those who suffer with constipation, headache, biliousness, kidney troubles, backache and other ailments. It has worked wonders and is working more.

See your druggist about it and be sure that he gives you the genuine article.

The hour for 5 o'clock tea in Paris is 9 p. m.

Cesar's wife must be above suspicion. There is not a shadow of a suspicion in any reasonable mind that Mishler's Herb Bitters is not the surest, the safest, the most efficacious of all proprietary remedies. M. A. Aitken, of Wilmington Del., gives us very flattering accounts of the success of the bitters in curing the most violent cases of cramps, chills and fevers, cholera morbus, cholera and various diseases of a similar nature.

Coroner's Notice.

Notice is hereby given, that on Sunday evening, October 4, 1885, at a fire which took place on the fair grounds near the city of Fort Wayne, Indiana, burned to death an unknown man. He was supposed to be about thirty years old, five feet nine inches tall and weight about one hundred and fifty pounds.

JAMES M. DINNEN, Coroner of Allen county.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

REV. H. B. ERRELL, of Pavilion, N. Y., says of Gilmore's Aromatic Wine: "I believe it to be a most desirable remedy to be placed in every family."

WILLIS L. CULVER, of Pavilion, N. Y., says that Gilmore's Magnetic Elixir cured him of a long standing throat and lung trouble.

LADIES. Use Gilmore's Aromatic Wines for nervousness and sleeplessness.

CONFINED TO THE BED FOUR MONTHS, and almost blind, and cured by one box of Gilmore's Neuralgia cure.

WHAT WILL CURE THROAT AND LUNG TROUBLES? Gilmore's Magnetic Elixir.

When Tried Always Preferred.

When they once become acquainted with it, ladies invariably prefer Parker's Hair Balsam to any similar preparation. It makes the hair soft and glossy, arrests its falling out, promotes a new growth, restores the original color and has no equal as a dressing. Not a dye, not oily, highly perfumed. Only 50c, at druggists.

Notice to Taxpayers.

The County Treasurer's office will be open each evening, commencing October 19, from 7 to 8 o'clock, until the first Monday in November, when the time expires for paying the second installment of taxes, and a penalty will added on all tax not paid by that time.

In a few weeks E. B. Smith will succeed Tom Sullivan as depot transfer agent and Tom Mannix will succeed Captain Lewis. The last two appointments are official, having been announced by Congressman Lowry.

The special delivery feature of the postal system fails to pay in the smaller offices. Most postmasters report that messengers have not earned \$2 in six days. It is thought that the special delivery will have to be confined to free delivery offices, where substitute can be employed. In Fort Wayne the system is working admirably and Postmaster Kaough takes especial pride in the matter.

Dan Sully, whose "Corner Grocery" company No. 1 appears at the Temple to-night, relinquished control of Tony Pastor's theater in New York Saturday night. Mr. Sully will withdraw from the "Capital Prize" company October 24, having lost \$4,000 on the venture, leaving Harry Morris to continue it on the road. Mr. Sully is organizing a "Corner Grocery" company, No. 2, now rehearsing at Louisville, in which Sam Ryan will play "Daddy Nolan," and George Beane will play "Budweiser." The company will be under the management of Mr. D. H. Wheeler and Mr. J. K. Sully, brother of the author.

The Darlington Brothers gave a nice performance at the Princess rink Saturday evening. Miss Alma Wilard appeared with them. Miss Emma Bender won a pair of skates in the ladies' contest.

Frenchtown received quite a boom yesterday. Edward Holzworth, a passenger brakeman on the Grand Rapids road is the father of a boy; Harry Slagle, local engineer on the Richmond, a girl, and John Rhinehard, fireman on the Pittsburgh, a boy.

An unknown man was killed on the Pittsburgh road west of Columbia City Sunday morning. A freight train cut him to pieces. He was well dressed, but the train men say he was drunk and headed not their warning to get off the track. The coroner of Columbia City held an inquest.

There was a wreck on the Pittsburgh road, just west of town Saturday evening. The side rod of an engine and the wheel belonging to a freight train broke and ripped the track up badly. The afternoon passenger train was held two hours, and quite a number of passengers walked in. The damage will run up to a few thousand dollars.

The Chicago Rambler says: "Mr. John L. Sullivan is paid \$700 per week to appear with a negro minstrel company, and he forfeits \$200 every night he is drunk. At this rate the management will make \$700 a week out of Mr. Sullivan." Fort Wayne people will have a chance to see the champion with Lester & Allen's Minstrel company at the Temple Friday evening.

Joseph Jefferson, who recently appeared at the Temple, contemplates a company next season which will include Owens, Coudock, Mrs. Dew and others of almost equal prominence. "The Rivals" and probably others of the old comedies will be revived. It will be one of the most notable organizations that has ever taken the road. Mr. Jefferson will make his season longer.

Some very tiresome correspondent writes the *Gazette* to say he fears the resurrection of dead bodies in the Broadway cemetery might create cholera here. The correspondent forgets that the resurrection of dead bodies has been going on for years, and only last week the remains of two persons were carted away. Is it not better to cause the removals with caution than to let inexperienced people do it, and you can't hinder them. The correspondent fails to make his point.

THE LAW SUSTAINED.

The Word Telephone Means All That is Necessary to Conversation.

The telephone case was ruled upon by Judge Taylor, at Indianapolis to-day and he holds in favor of the relator (Bradbury) and against the Telephone company, and that the legislature, in regulating the price of service, included in the word telephone all that was necessary with which to hold conversation. His ruling will be placed upon record when the exceptions have been perfected and the defense expect to be in readiness so that the appeal to the general term of the supreme court can be passed upon the first Monday in November.

AMUSEMENTS.

The Thomas Concert.

In view of the appearance of the Thomas concert company and orchestra, at Princess rink, next Thursday, it will interest many to know that the official prospectus of the Theodore Thomas American opera enterprise in New York has been issued. The season is to begin at the New York Academy of Music on January 4, next, and continue fifteen weeks. The promises of completeness and excellence made are very liberal. The leading sopranos are Pauline L'Allemand, Annis Montague, Charlotte Walker, Emma Juch, and Kate Bensberg; the contraltos, Jessie Bartlett Davis, Matilde Mullenbach, Sara Barton, Helen Campbell, and Mathilde Phillips; the tenors, Charles Turner, Charles Thompson, Albert Paulet and William Candide; the baritones, William H. Lee, Alopo Stoddard and George Sweet; the basses, John Gilbert, E. J. O'Mahony, William H. Hamilton, and M. W. Whitney. The chorus is to number one hundred voices, and the orchestra is to be that of Mr. Thomas. It is notable that of the fourteen operas named, from which ten are to be chosen for the first season, not one is by an English or American composer.

The Seabrook company gave Nat Goodwin's "Hobbies" to a fair house at the Academy Saturday night. The company is indeed very clever and they do the amusing play in an artistic and highly enjoyable way.

Miss Annie Lewis and her party appear at the Academy in a "Little Trump." The Dan Sully company present the "Corner Grocery" at the Temple. Both are good shows and it is a pity they appear against each other. Miss Lewis is new here but is quite a charming little lady and as cute as she can be on the stage.

The shipments of flour, grain and provisions from Chicago to eastern through stations by the pool lines during the week ending Saturday, Oct. 17, amounted to 38,790 tons, against 55,460 tons during the preceding week, a decrease of 16,670 tons. Shipments of flour decreased 3,407 tons; those of grain decreased 9,131, and those of provisions decreased 4,132 tons. The Pittsburgh road carried next to the largest shipment, 8,380 tons, and the Nickel Plate carried 2,132 tons.

Death of Mrs. Eli Calbetzer.

Mrs. Eli Calbetzer died yesterday after a lingering and complicated illness. The lady has been an invalid for years and some time ago was accidentally given a dose of poison, prepared by Druggist Shaffer instead of quinine. She rallied from the effects of the poison and her physician, Dr. Geo. L. Greenawalt ascribes her death to natural causes.

A Fort Wayne Boy Succeeds.

The St. Joseph (Mo.) *Gazette* has this reference to George W. Morris, a former county treasurer here: "Hon. Maroon A. Low and several other prominent gentlemen connected with the Chicago,

Rock Island and Pacific railroad, arrived in St. Joseph Tuesday, and while they were here the contract for building the freight house, offices and depot was awarded to Mr. George W. Morris, the well known contractor and builder. The buildings will front on Messanie street, between Fourth and Fifth streets. The main edifice will be 160x180 feet, and will be five stories high. The building will be a very handsome brick structure, trimmed with stone." Mr. Morris resides at Hiawatha, Kan., and his friends will be pleased to read of his success.

A BRAVE GIRL.

A Thief Invades the Home of a Night Watchman and His Daughter Defends Herself.

This morning John Dahms, who lives in the extreme east end and is engaged as a night watchman, told Sheriff Nelson that at 2 o'clock Sunday morning, a thief forced an entrance to his house. His daughter, a young lady was there all alone and the intruder coolly told her he proposed to take what he pleased. Without a murmur the brave girl pulled a pistol from under the pillow of her bed and blazed away at the thief. Blood spurted from his face she says and the girl is confident she hit him. The fellow fled from the house after seven shots were fired at him and it is safe to say that no one will intrude on the young woman for some weeks. Mr. Nelson is striving to track the man and this morning traced his blood to the railroad track. Here the gore was washed away and unless the man's wound gives him away it will be hard to detect him.

The girl's name is Jennie Dahms. She is eleven years old, but very voluptuous and determined. The girl's mother is in the insane asylum and her trial for the alleged murder of her baby will be recalled.

Mr. Madison Bowser, son of Hon. J. C. Bowser, died yesterday at the home of his father, on East Berry street, from typhoid fever. Mr. Bowser was an excellent gentleman, and his loss is deeply mourned. He leaves a wife and one child, and two sisters, Mrs. J. W. Pearse and Miss Sallie Bowser. Mr. Bowser has been ticket agent for the Nickel Plate railroad since its establishment here, and before that held many responsible positions. His father, Hon. J. C. Bowser, is grief stricken at the loss of his son, and Mrs. Madison Bowser is in delicate and much prostrated by her husband's death. The funeral of the late Mr. Bowser will occur to-morrow afternoon, at 2 o'clock, from the family residence on East Berry street, Revs. Waltz and Moffat officiating.

It is said that the desire of the Lackawanna road to reach Chicago has caused it to offer a guarantee of 5 per cent on the first mortgage bonds of the Nickel Plate road if given its control. The Vanderbilts have forestalled such a transfer by securing judgments for large amounts against the unfortunate Nickel Plate, as well as buying receivers' certificates.

Grand hop of the Fort Wayne Turnverein occurs Thursday Oct. 22, at Arion hall. Reinek's orchestra will furnish the music. Tickets 50 cts. 19-2t

A COMING EVENT.

A Grand Opening That is Awaited with Much Interest.

H. N. Ward's name is a household word and the celebrated dog that stands watch in front of his crockery store is alike famous. Mr. Ward has something in store for his patrons and friends in the nature of a magnificent display of crockery, queensware and the vast array of articles in his line. He has now en route here consignments from the leading manufacturers in France, Germany, England and America. Mr. Ward spares no expense to lead the trade, and in a short time he will announce his grand opening, and thus display to the public the most magnificent and costly line of crockery, queensware and fancy articles ever looked at in the west. It is always a pleasure to note the success of a business house, but especially is it a pleasure to note the fact that Mr. Ward shows the people of Fort Wayne as fine a stock of goods as any house in the land. THE SENTINEL will again refer to Mr. Ward's business reception and the arrival of his new goods.

General Master Mechanic Barnes, General Foreman D. G. Brooks and Assistant Foreman Jacob Schilling, of the Springfield shops, were the guests of General Foreman Tyrrell, Assistant Billy Berbeck and Foreman Dan Campbell over Sunday. They left last evening for their homes much pleased with their visit.

A telephone message to THE SENTINEL office late this afternoon announced the sudden death of Mrs. Robert F. Kinaird, wife of the general ticket agent of the Muncie road. Mrs. Kinaird was a most admirable lady and THE SENTINEL can only say now that her death will be deeply mourned.

Mr. Frank W. Morse and D. L. Hough, of Springfield, Ill., spent Sunday in the city, the guest of friends. Both gentlemen are under General Master Mechanic Barnes of the motive power department of the Wabash.

Mr. and Mrs. Jake Gable was pleasantly surprised last Saturday evening by a party of twenty couple. Mr. and Mrs. Gable set an elegant luncheon at 11 o'clock. They live four miles out on South Calhoun.

Officer O'Connell found the front door of W. H. Miller's grocery open early Sunday morning. It was locked early Saturday evening, but evidently some attache was there later. Nothing was carried away.

The case against Nellie Hines comes up before Justice Hays to-morrow. It is likely to again be postponed.

Nothing Made in Vain.

We are told that nothing was made in vain; but what can be said of the fashionable girl of the period? Isn't she maiden vain? Hood's Sarsaparilla is made in Lowell, Mass., where there are more bottles of it sold than of any other sarsaparilla or blood purifier. And it is never taken in vain. It purifies the blood, strengthens the system, and gives new life and vigor to the entire body. 100 doses \$1.

AUCTION.

H. T. Stapleford will sell at auction, Wednesday Oct. 21, the stock of dry goods and notions at 130 Broadway. Sale at 2 and 7:30 p. m., until all the stock is sold. 19-2t

TWO HORRORS.

Collision Between the Southern and
Western Pennsylvania Trains
Near Jersey City.

Twelve People Instantly Killed and a
Large Number are Seri-
ously Wounded.

Another Bad Mishap, at East Andover....

Three Persons Killed and Five
Injured.

AWFUL.

Eight People Slaughtered in a
Wreck.

By Telegram to THE SENTINEL.
New York, Oct. 19.—In a fog that
hung over the meadow last night be-
tween Jersey City and Newark, three
passenger trains came together on the
New York division of the Pennsylvania
railroad. Three passengers were killed
outright and seven injured more or less
seriously. The names of the three pas-
sengers killed have not yet been ascer-
tained, for they were passengers on the
rear car of the emigrant train, which
was telescoped and thrown across the
track. When the accident was first re-
corded rumor put the number killed at
one or ten, but the ruins have been
thoroughly overhauled, and it is believed
that the list of casualties is complete.

The express locomotive ploughed ahead
into the rear emigrant passenger coach
and turned it across the other track. In
this car were all the three who were
killed, and they died almost instantly, or
shortly after the crash. The five emi-
grants who were hurt were also taken
from the ruins of this coach. Hardly
had the train hands and the multitude
of unfortunate foreigners begun to
recover their scattered senses and
pick themselves out of the ruins, when
another gleaming headlight loomed up
through the mist. It belonged to the
engine of the Lehigh Valley train No.
191, that left Metuchen at 7:40 and was
due at Jersey City at 8:35. It had left
Newark five minutes before the Western
express left Jersey City. It dashed
headlong into the wreck and went over
the embankment, but fortunately took
none of the cars with it.

As near as can be ascertained, the list
of

KILLED AND WOUNDED
is as follows: Unknown man about 40
years of age. His head was completely
torn from his body, and both his arms
were broken.

Unknown woman about 25 years of
age. Her head was severed from her
neck, and her body was covered with
bruises.

Unknown boy about 12 years of age,
both his legs were broken and his skull
was fractured.

Unknown girl about 18 years old.
Her skull was fractured.

Ulena Arnesen, 35 years of age, on her
way to her father at Madison, Wis.
Both her legs were broken and her skull
fractured. She was brought to the de-
pot alive, but died five minutes after
reaching St. Francis' hospital.

Marius Kluger, head and body
bruised.

Laura Melanand, head and legs cut;
likely to die.

Christian Wyagritsen, of Holstad.
Karl Henry Grommer, a Norwegian,
aged 36. Mrs. Karl H. Grommer, aged 33,
and William Grommer, aged 8, are
among the dead.

E. V. Urberath, conductor of the emi-
grant train, arm broken.

Stewart A. Dowers, fireman of the Le-
high Valley train, South Easton, Pa.;
married; scalp wound.

Owen Hall, engineer of the Lehigh
Valley train, Easton, Pa., 37 years old;
married; fracture of the back and severe
bruises.

Three men taken to St. Francis hospi-
tal in conscious.

Ralph Barry, aged 29 years, internal
injuries.

Christine Y. Bakla, a Norwegian, 35
years old, right leg fractured in two
places.

ROSES FROM THE DEAD.

JERSEY CITY, N. J., Oct. 19.—The
bodies of two boys and a woman were
found this morning under the Lehigh
valley engine. The bodies have been
brought to this city, but as yet they
have not been identified. Thomas P.
Pratt, a telegraph operator, at Marion,
has been arrested.

Pratt, who is 26 years old, is an expe-
rienced operator. He admits he did not
give the right signal. He says he was
advised by his friends to desert, but re-
fused to do so. He is held to await the
action of the coroner's jury. Herodotus
at No. 325 Fifth street, this city, with
his wife and three children.

There have been eight deaths in all and
most of the wounded will, it is thought,
die. The depot is surrounded by a crowd
of ailing news and great excitement pre-
vails here. The bodies at the morgue
have not been identified.

ANOTHER HORROR.

CONCORD, N. H., Oct. 19.—A passen-
ger train on the Northern railway ran
into a broken freight last night at And-
over Plains, this state. Three men were
killed and six were seriously hurt. The
express messenger and baggage master
were imprisoned in the wreck and it was

necessary to cut them out. Both of these
were in the baggage car which took fire,
but the flames were extinguished with-
out damage. There were two clerks in
the mail car, one of whom was injured.
Aside from a severe shaking, up, none of
the passengers were hurt. A wrecking
train and medical assistance went from
here and the track was cleared before
night.

The following is a list of the killed:
L. Graves, engineer of the passenger
train, of Concord, aged 60 years.
John P. Emerson, engineer of the
freight train, of Concord, aged 39.
William Harvey, brakeman on the
freight train, of Lebanon, aged 30.
The following is a list of the injured:
Frank H. Stevens, postal clerk, of
West Lebanon, leg hurt.
William W. Stone, express messenger,
of Concord, ankle and head bruised.
William Turner, baggage-master, of
West Lebanon, leg broken and otherwise
injured.
Oscar Leighton, fireman on the pas-
senger train, of Concord; head and hand
bruised.
Frank C. Wells, fireman on the freight

Trenery, of the steamship Baltimore,
which arrived today, reports that on
the 3d inst. at 11 o'clock at night,
while in latitude 50 55, longitude 17 40
west, he passed a ship on fire. He
steamed all around her, burned night
signals, and sounded his whistle many
times, but could discover no sign of
any persons on board. The ship was
a mass of fire the water's edge, from
her stem to the forecastle, which was
the only most standing. Captain
Trenery judged from the smell of the
smoke that the ship's cargo was of
vegetable matter, such as wood or
cotton. The wind was blowing heavy
at the time and he could not get close
enough to identify her.

COLUMBUS, Oct. 19.—The official count
of this county was continued this morn-
ing. I. E. Powell appeared for demo-
cratic candidates and spoke three-
quarters of an hour. R. A. Harrison fol-
lowed for the republican candidates and
at the conclusion of his speech the
board of canvassers concluded to re-
ceive and count the returns.

Precinct A, of the Fourth ward was
counted and tallied with satisfaction to
all candidates. The returns from the
Thirteenth ward had been read through
the lists of republican candidates there
being a total vote of 760 in the precinct.
The original vote stood republicans 533 on
the head of the ticket and 233 demo-
crats. Three hundred tallies had been
added to the full democratic ticket with
the exception of Atherton, for supreme
judge, who had been given 200. This
made the total vote a little over 1,000.
About 300 more votes than are
in the precinct. The board de-
cided to count the precinct
as returned. This will elect about the
entire democratic county ticket, and
Taylor, republican, for legislature, by
forty-five votes. Myers and Young,
democrats, for representatives, will still
be defeated. The board of canvassers
adjourned to 5 p. m., when they will
meet to sign the certificates. Represen-
tatives of both sides have asked permis-
sion to appear before the board at that
time. There is considerable fretting
over the discoveries in the Thirteenth
ward. The returns have been in the
possession of the clerk since Saturday.

THE COUNT AT DAYTON.

DAYTON, Oct. 19.—The official count

balance of the state ticket varies eight or
ten votes. Samuel E. Kemp, republi-

six. Montgomery gave Robertson, dem-
ocrat, 178 majority. Probable county gave
Kemp 224. Three democratic repre-
sentatives, Eldemiller, Edwards and
Turner are elected. The county dem-
ocratic ticket is elected. The official
count made a change in the earlier re-
ports.

AT CINCINNATI.

CINCINNATI, Oct. 19.—The official
count in Hamilton county began to-day.
The republican and democratic candi-
dates were represented by counsel. The
returns from three precincts are missing
and a mandamus was issued in each case
for their production. It may require
two or three days to complete the count.
Colonel Hudson, chief of police, who is
charged with dereliction of duty, etc.,
in not arresting men charged with viola-
tion of the registry law, was continued
until next Monday, at the request of the
state. The cases of others charged
with violating the registry law were also
continued, to enable their lawyers to
argue the denunciations which are based on
the unconstitutionality of the law, the
point being that it applies only to Cin-
cinnati and Cleveland.

A HUMAN ROAST.

A Family of Four Persons
Burned to Death.

By Telegram to THE SENTINEL.
CHICAGO, Oct. 19.—A terribly quick-
spreading fire broke out in a one-story
and a half brick cottage, No. 86 Vernon
Park Place, owned and occupied by W.
P. Bates, a few minutes after six this
morning, in which four persons were
burned to death. The family consists of
five persons and a servant girl, and all
but two met a horrible death. Fire
Marshal Campion found Mr. Bates in
the alley at the side of the house suffer-
ing from several severe burns, but
able to tell the terrible story of the
catastrophe, while wringing his
hands in agony over the loss of the fam-
ily and suffering keenly from his own
severe burns. He said that at 6 o'clock
the servant girl started a fire in the
kitchen and went out of doors a moment
later, leaving the door open. She re-
turned in a minute or two and found the
kitchen in a blaze. The girl ran away
screaming with fright, and Mr. Bates
was awakened. He rushed into the
kitchen and tried to extinguish the fire
with the hose attached to the hydrant
and afterwards with buckets. Not suc-
ceeding, he rushed out and sent in an
alarm. The firemen went to work on the
blazing pile with a will and succeeded in
putting the fire out in about fifteen
minutes. The entire interior of the
house was destroyed, and but the
walls remained intact. When the
firemen entered the house they found the
charred bodies of the entire family, with
the exception of Mr. Bates. They were:
Mrs. Mary Bates, aged 35; John Bates,
aged 5; Edward Bates, infant; Mrs.
Dreslow, aged 70, mother of Mrs. Bates.
The body of Mrs. Bates was found lying
two feet from the front windows on the
first floor, burned to a crip, the charred
remains of the infant baby lying close by.
The remains of Mrs. Dreslow were
found up stairs, where she died of suffoca-
tion, as the body was not much
burned.

The Fire Record.

CARROLLTON, Ill., Oct. 19.—Fire origi-

ings occupied as dry goods and general

ST. LOUIS, Oct. 19.—Fire was dis-
covered on the sixth floor of the Third
National bank building yesterday. The
entire floor is occupied by the Bell Tel-
ephone company and the operatives
hardly had time to make their escape.
The fire was confined to the sixth floor,
though the building was flooded to the
cellar. The bank suffered a loss from
water. The telephone company's loss
is \$8,000. The fire was caused by the
current from the electric wire accident-
ally communicating with some paraffine-
covered wire in the exchange.

Base Ball.

By Telegram to THE SENTINEL.
NEW YORK, October 15.—Conference
committees of the National league and
American base ball association, con-
tinued sessions to-day. Shortly after
the meeting of the afternoon confer-
ence, the committees announced that
they had completed their work and
were ready to submit their reports to
the respective associations. The mem-
bers of the National league and
American association held separate
meetings, at which the respective com-
mittees announced the result of the
conference. The rumored new agree-
ment will be a complete surprise to
the public as well as to the base ball
men of this country.

Billy Veltz, who has seen the new
agreement says it does away with the
old reserve rule which places the num-
ber of men at eleven and substitutes a
new rule which includes all the men
belonging to the club. If either the
league or association releases a player
he can not be engaged by the opposite
organization until ten days after the
date of the release. The clause re-
lating to salaries provides that \$2,000
shall be the limit. No outside organi-
zation will be recognized in any way.
The league is given the right to secure
players from any club it chooses. The
association has the same privilege.

The special delivery feature of the postal system fails to pay in the smaller offices. Most postmasters report that messengers have not earned \$2 in six days. It is thought that the special delivery will have to be confined to free delivery offices, where substitute can be employed. In Fort Wayne the system is working admirably and Postmaster Kaough takes especial pride in the matter.

Some very tiresome correspondence writes the Gazette to say he fears the resurrection of dead bodies in the Brown way cemetery might create elation here. The correspondent forgets that the resurrection of dead bodies has been going on for years, and only last week the remains of two persons were carted away. He is too late to cause the removal with caution than to let inexperienced people do it, and you can't hinder them. The correspondent fails to make his point.

THE LAW SUSTAINED.

The Word Telephone Means All That is Necessary to Conversation.

The telephone case was ruled upon by Judge Taylor, at Indianapolis to-day and he holds in favor of the relator (Bradbury) and against the Telephone company, and that the legislature, in regulating the price of service, included in the word telephone all that was necessary with which to hold conversation. His ruling will be placed upon record when the exceptions have been perfected and the defense expect to be in readiness so that the appeal to the general term of the supreme court can be passed upon the first Monday in November.

AMUSEMENTS.

The Thomas Concert.

In view of the appearance of the Thomas concert company and orchestra, at Princeton, next Thursday, it will interest many to know that the official prospectus of the Theodore Thomas American opera enterprise in New York has been issued. The season is to begin at the New York Academy of Music on January 4, next, and continue fifteen weeks. The promises of completeness and excellence made are very liberal. The leading sopranos are Pauline Valdemann, Anna Montague, Charlotte Walker, Emma Juch, and Kate Rensberg; the contraltos, Jessie Bartlett Davis, Matilda Mullenbach, Sara Barton, Helen Campbell, and Mathilde Phillips; the tenors, Charles Turner, Charles Thompson, Albert Paulet and William Caudling; the baritones, William H. Lee, Alonzo Stoddard and George Sweet; the basses, John Gilbert, E. J. O'Mahony, William H. Hamilton, and M. W. Whitney. The chorus is to number one hundred voices, and the orchestra is to be that of Mr. Thomas. It is notable that of the fourteen opera named, from which ten are to be chosen for the first season, not one is by an English or American composer.

The Seabrook company gave Nat Goodwin's "Hotdies" to a fair house at the Academy Saturday night. The company is indeed very clever and they do the amusing play in an artistic and highly enjoyable way.

Miss Annie Lewis and her party appear at the Academy in a "Little Trump." The Dan Sully company present the "Corner Grocery" at the Temple. Both are good shows and it is a pity they appear against each other. Miss Lewis is new here but is quite a charming little lady and as cute as she can be on the stage.

Death of Mrs. Eli Calbetzer.

Mrs. Eli Calbetzer died yesterday after a lingering and complicated illness. She rallied from the effects of the poison and her physician, Dr. Geo. L. Greenwaldt, ascribes her death to natural causes.

A Fort Wayne Boy Succeeds.

The St. Joseph (Mo.) Gazette has this reference to George W. Morris, a former county treasurer here: "Hon. Marcus A. Low and several other prominent gentlemen connected with the Chicago,

Rock Island and Pacific railroad, arrived in St. Joseph Tuesday, and while they were here the contract for building the freight house, offices and depot was awarded to Mr. George W. Morris, the well known contractor and builder. The buildings will front on Messana street, between Fourth and Fifth streets. The main edifice will be 160x180 feet, and will be five stories high. The building will be a very handsome brick structure, trimmed with stone." Mr. Morris resides at Hiawatha, Kan., and his friends will be pleased to read of his success.

A BRAVE GIRL.

A Thief Invades the Home of a Night Watchman and His Daughter Defends Herself.

This morning John Dahms, who lives in the extreme east end and is engaged as a night watchman, told Sheriff Nelson that at 2 o'clock Sunday morning, a thief forced an entrance to his house. His daughter, a young lady was there all alone and the intruder coolly told her he proposed to take what he pleased. Without a murmur the brave girl pulled a pistol from under the pillow of her bed and blazed away at the thief. Blood spurted from his face cheeks and the girl is confident she hit him. The fellow fled from the house after seven shots were fired at him and it is safe to say that no one will intrude on the young woman for some weeks. Mr. Nelson is striving to track the man and this morning traced his blood to the railroad track. Here the gore was washed away and unless the man's wound gives him away it will be hard to detect him.

The girl's name is Jennie Dahms. She is eleven years old, but very voluptuous and determined. The girl's mother is in the insane asylum and her trial for the alleged murder of her lady will be recalled.

Mr. Madison Bower, son of Hon. J. C. Bower, died yesterday at the home of his father, on East Berry street, from typhoid fever. Mr. Bower was an excellent gentleman, and his loss is deeply mourned. He leaves a wife and one child, and two sisters, Mrs. J. W. Pearce and Miss Sallie Bower. Mr. Bower has been ticket agent for the Nickel Plate railroad since its establishment here, and before that held many responsible positions. His father, Hon. J. C. Bower, is grief stricken at the loss of his son, and Mrs. Madison Bower is indelicate and much prostrated by her husband's death. The funeral of the late Mr. Bower will occur to-morrow afternoon, at 2 o'clock, from the family residence on East Berry street, Revs. Waltz and Moffat officiating.

It is said that the desire of the Lackawanna road to reach Chicago has caused it to offer a guarantee of 5 per cent on the first mortgage bonds of the Nickel Plate road if given its control. The Vanderbilts have forestalled such a transfer by securing judgments for large amounts against the unfortunate Nickel Plate, as well as buying receivers' certificates.

Grand hop of the Fort Wayne Turnverein occurs Thursday Oct. 22, at Arion hall. Reineck's orchestra will furnish the music. Tickets 50 cts.

He has now en route here consignments from the leading manufacturers in France, Germany, England and America. Mr. Ward spares no expense to lead the trade, and in a short time he will announce his grand opening, and thus display to the public the most magnificent and costly line of crockery, queensware and fancy articles ever looked at in the west. It is always a pleasure to note the success of a business house, but especially is it a pleasure to note the fact that Mr. Ward shows the people of Fort Wayne as fine a stock of goods as any house in the land. Nothing Made in Town.

We are told that nothing was made in vain; but what can be said of the fashionable girl of the period? Isn't she making love? Hood's Sarsaparilla is made in Lowell, Mass., where there are more bottles of it sold than of any other sarsaparilla or blood purifier. And it is never taken in vain. It purifies the blood, strengthens the system, and gives new life and vigor to the entire body. 100 doses \$1.
